## PROFILE

Passionate Full-Stack Developer specializing in fast, dynamic, and scalable web applications—from frontend UX to backend architecture. I thrive in remote and hybrid environments, leveraging strong communication and self-discipline to deliver high-quality code asynchronously. With expertise in modern frameworks and cloud technologies, I build solutions that are powerful, user-friendly, and globally accessible.

Why I Excel in Remote Work:

- Proven remote collaboration: Experienced with Agile tools (Jira, Slack, Zoom) and async workflows.
- Self-motivated & disciplined: Consistently meet deadlines with minimal supervision.
- Clear communicator: Document code thoroughly, write concise updates, and adapt to time zones.
- Cloud-native development: Skilled in deploying and optimizing apps for distributed teams.

## EXPERIENCE

### **AYA Bank** — *Full Stack Developer*

May 2024 - PRESENT

- Designed and developed backend APIs for Ayapay operations using sails.js, implementing seamless system integration via NodeRed server for real-time data processing, ensuring efficient and scalable system functionality
- Enhanced the UI portal by improving its design, usability, and performance to provide a seamless user experience.
- Worked closely with cross-functional teams to troubleshoot and resolve technical issues, optimizing system performance and reliability.

### **Web Developer** — *FreeLancer*

March 2022 - March 2023

- Developed and designed responsive websites for various clients using HTML, CSS, PHP and JavaScript.
- Collaborated closely with clients to understand their requirements and provide tailored solutions to meet their needs
- Managed project timelines and budgets effectively, ensuring timely delivery and client satisfaction.

## GreenHacker — *Internship*

Aug 2020 - Nov 2020

- Developed and maintained web applications using **Laravel**, focusing on backend functionality.
- Assisted in building RESTful APIs and integrated them into web applications.
- Collaborated with senior developers to troubleshoot and optimize application performance.

## SKILLS

### FRONTEND

- Proficient in HTML, CSS, JavaScript, Bootstrap, React, Next.js, Chakra UI
- Experienced in building responsive, accessible, and user-friendly web interfaces
- JavaScript (React/Vue), Next.js, TypeScript, Tailwind CSS
- State Management (Redux/Zustand)
- Performance Optimization (Lazy Loading, Caching), Tenstack Query

### BACKEND

- PHP, Java, Node.js, Sails.js, Express.js, Nest.js, NodeRed Api
- Microservices architecture and development
- RESTful API design
- Authentication & Authorization
- API security, API integration

### DATABASES

- PostgreSQL, MySQL, MongoDB

### OTHERS

- Basic knowledge of Docker
- AWS services
- CI/CD pipelines
- Familiar with message brokers like Kafka and RabbitMQ
- Strong problem-solving abilities
- Computer literacy
- Clear communication

## EDUCATION

### University of Computer Studies, Yangon – (B.C.Sc)

Nov 2016 - March 2024, Shwe Pyi Thar

Bachelor of Science in Artificial Intelligence and Enterprise Resource Planning (ERP)

## LANGUAGE

English(Intermediate)

## PROFESSIONAL CERTIFICATIONS

- AWS Certified Cloud Practitioner(AWS) - May 2025
- Fundamental Basic Banking Clarify Certificated(AYA Bank) - Feb 2025
- Cs50 Introduction to Computer Science (Harvard University)- Dec 2020
- Professional Web Developer (Fairway Technology) - Feb 2020
- Professional Web Design (Intelligent Programming & Language Academy) - Jan 2019

## PROJECTS

### AYA PAY – Biller Integration (Node-RED)

- Integrated third-party biller APIs into AYA Pay using Node-RED
- Designed and managed real-time API chains with error handling and response validation
- Reduced internal server errors by improving request flow and debugging integration failures

### AYA PAY – Agent & Merchant Onboarding API

- Developed secure onboarding APIs using **Sail.js** and **MongoDB**, ensuring KYC compliance
- Integrated backend services with internal systems for agent and merchant registration
- Coordinated with mobile and QA teams to test, validate, and deploy the onboarding flow to production

### AYA PAY – DSE Agent Check-In System

- Developed QR-based check-in system for DSE agents with support for **dynamic QR codes**
- Implemented real-time location tracking (lat/long) to verify if DSE agents physically check in at their assigned locations
- Enabled data export features and reporting via internal portal for operational oversight

I hereby certify above statements are true and correct.
