AUNG KAUNG MYAT HTUN

PROFILE

As a passionate full stack developer, I specialize in building fast, dynamic, and scalable web applications from front to back. I enjoy working across the entire development process—from crafting clean, responsive user interfaces to designing efficient backend systems. I'm always learning and exploring new technologies to stay current and create solutions that are both powerful and user-friendly.

EXPERIENCE

AYA Bank — *Full Stack Developer*

May 2024 - PRESENT

- Designed and developed backend APIs for Ayapay admin operations, ensuring efficient and scalable system functionality.
- Enhanced the UI portal by improving its design, usability, and performance to provide a seamless user experience.
- Worked closely with cross-functional teams to troubleshoot and resolve technical issues, optimizing system performance and reliability.

Web Developer — *FreeLancer*

March 2022 - March 2023

- Developed and designed responsive websites for various clients using HTML, CSS, and JavaScript.
- Collaborated closely with clients to understand their requirements and provide tailored solutions to meet their needs
- Managed project timelines and budgets effectively, ensuring timely delivery and client satisfaction.

GreenHacker — *Internship*

Aug 2020 - Nov 2020

- Developed and maintained web applications using **Laravel**, focusing on backend functionality.
- Assisted in building RESTful APIs and integrated them into web applications.

SKILLS

- Proficient in HTML, CSS, JavaScript, Bootstrap, React, Next.js, Chakra UI
